Dear Patients, Visitors and Staff:

To minimize the spread of flu and other flu-like illnesses in our area, we are restricting children under age 12 from visiting the hospital at this time. Our Emergency Department is limiting visitors to one per patient.

If you are experiencing flu-like symptoms, including fever, cough, sore throat or runny nose, please do not visit friends and family in the hospital.

Hand washing remains the number one way to reduce the spread of infection. Cape Fear Valley has placed hand hygiene stations throughout the hospital and outside every patient room for your use. Simply rub the sanitizer all over your hands, especially under your nails and between your fingers, until your hands are dry.

We apologize for any inconvenience these restrictions may cause you, your family members and friends. However, we feel these restrictions are necessary to safeguard the health of our patients, staff and visitors.

Thank you for your cooperation as we work to fulfill our mission of “providing exceptional healthcare for all our patients.”

Sincerely,

Michael Nagowski  
Chief Executive Officer
